NOTE: The PSU Wattage we recommend only gives you a general idea on what to consider while selecting a power supply. PCI cards, External devices, USB and Firewire devices, Cooling fans and other components may need more power. Before purchasing, we advise you check all specs such as physical dimensions and item details to ensure 100% compatibility.

Total price: \$ 700.50

*LG C2 42 (106cm) 4K Smart OLED evo TV

Description

Specification

Reviews

The LG C2 42 (106cm) 4K Smart OLED evo TV is the best all-around OLED TV we've tested. Although all OLEDs deliver similar fantastic picture quality, this one stands out for its value because it has many gaming-oriented features that are great for gamers.

*Only 65G2 is shown in the image for example purposes. All 2022 LG OLED models feature eco-friendly packaging.

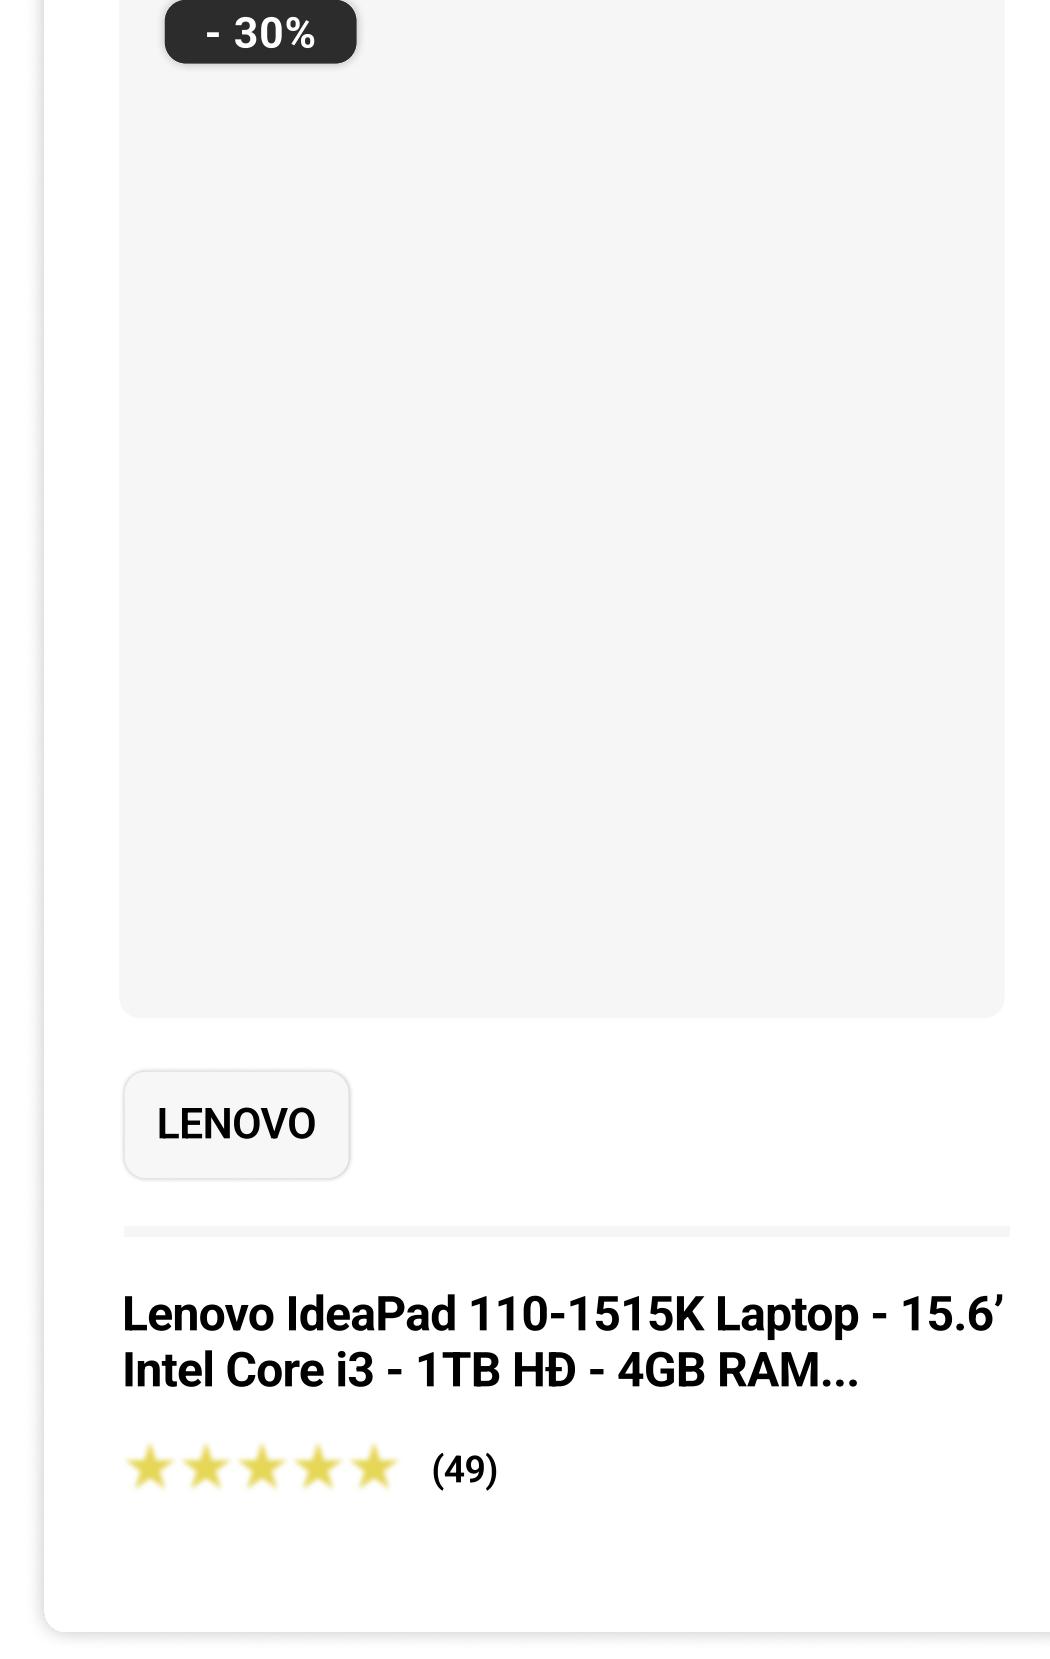

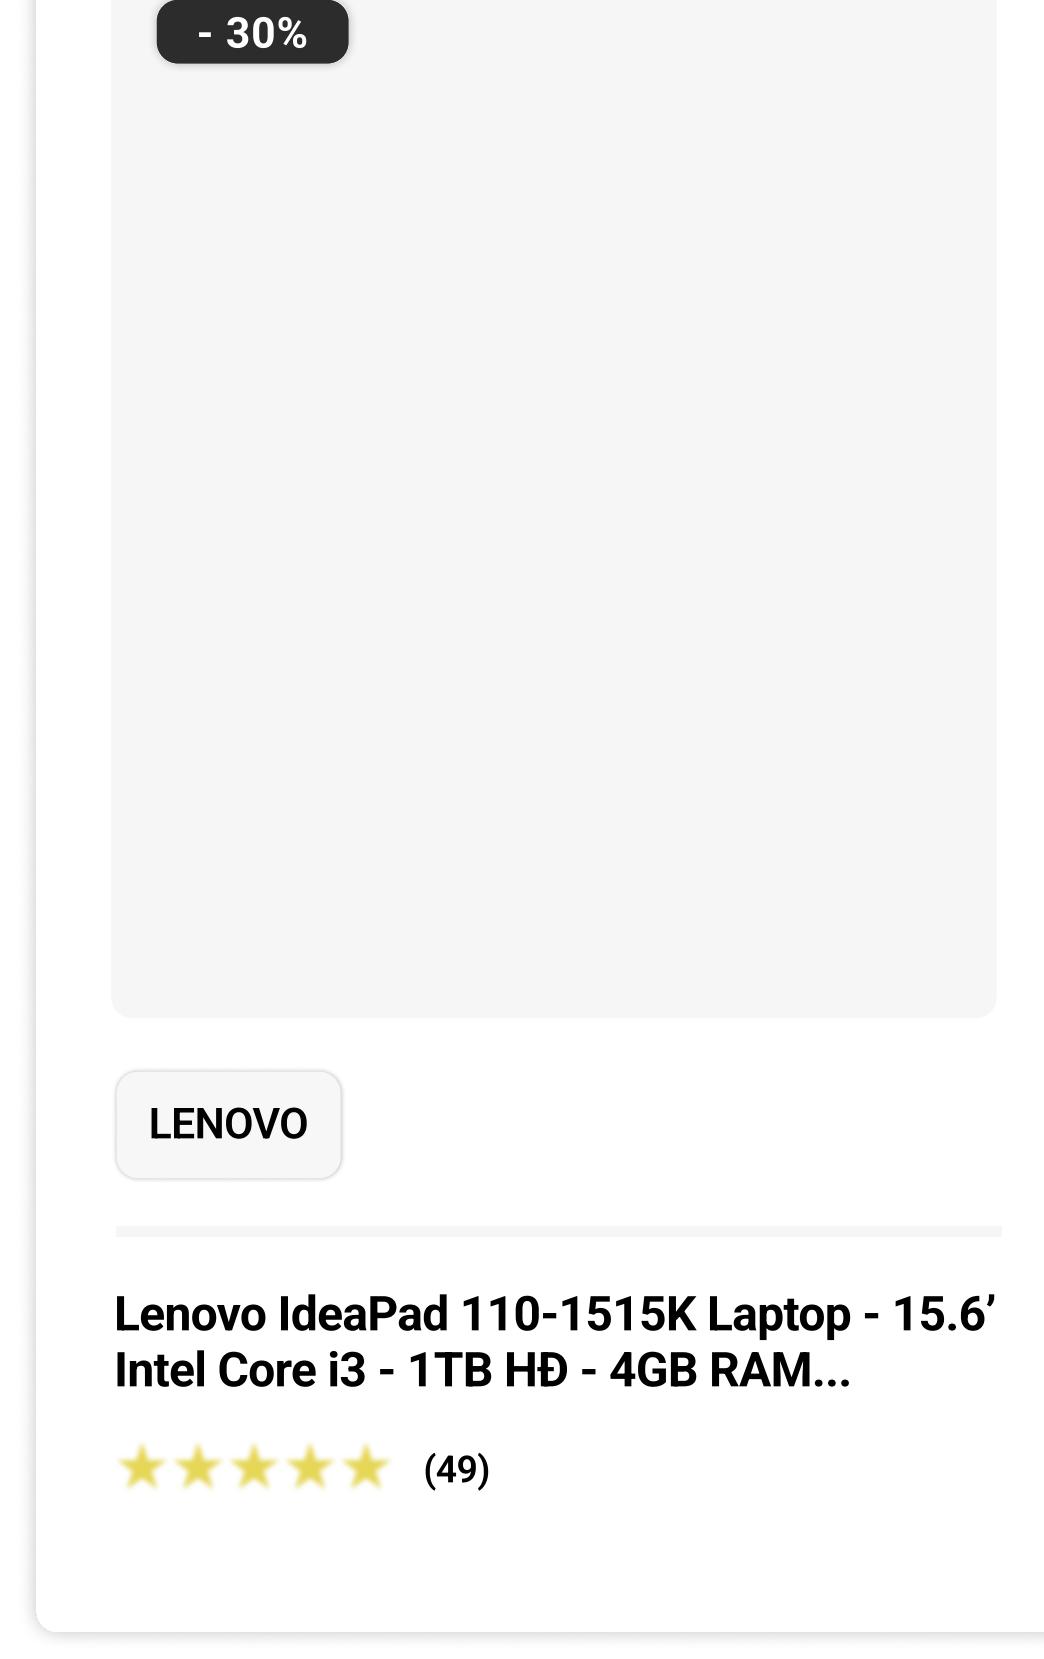

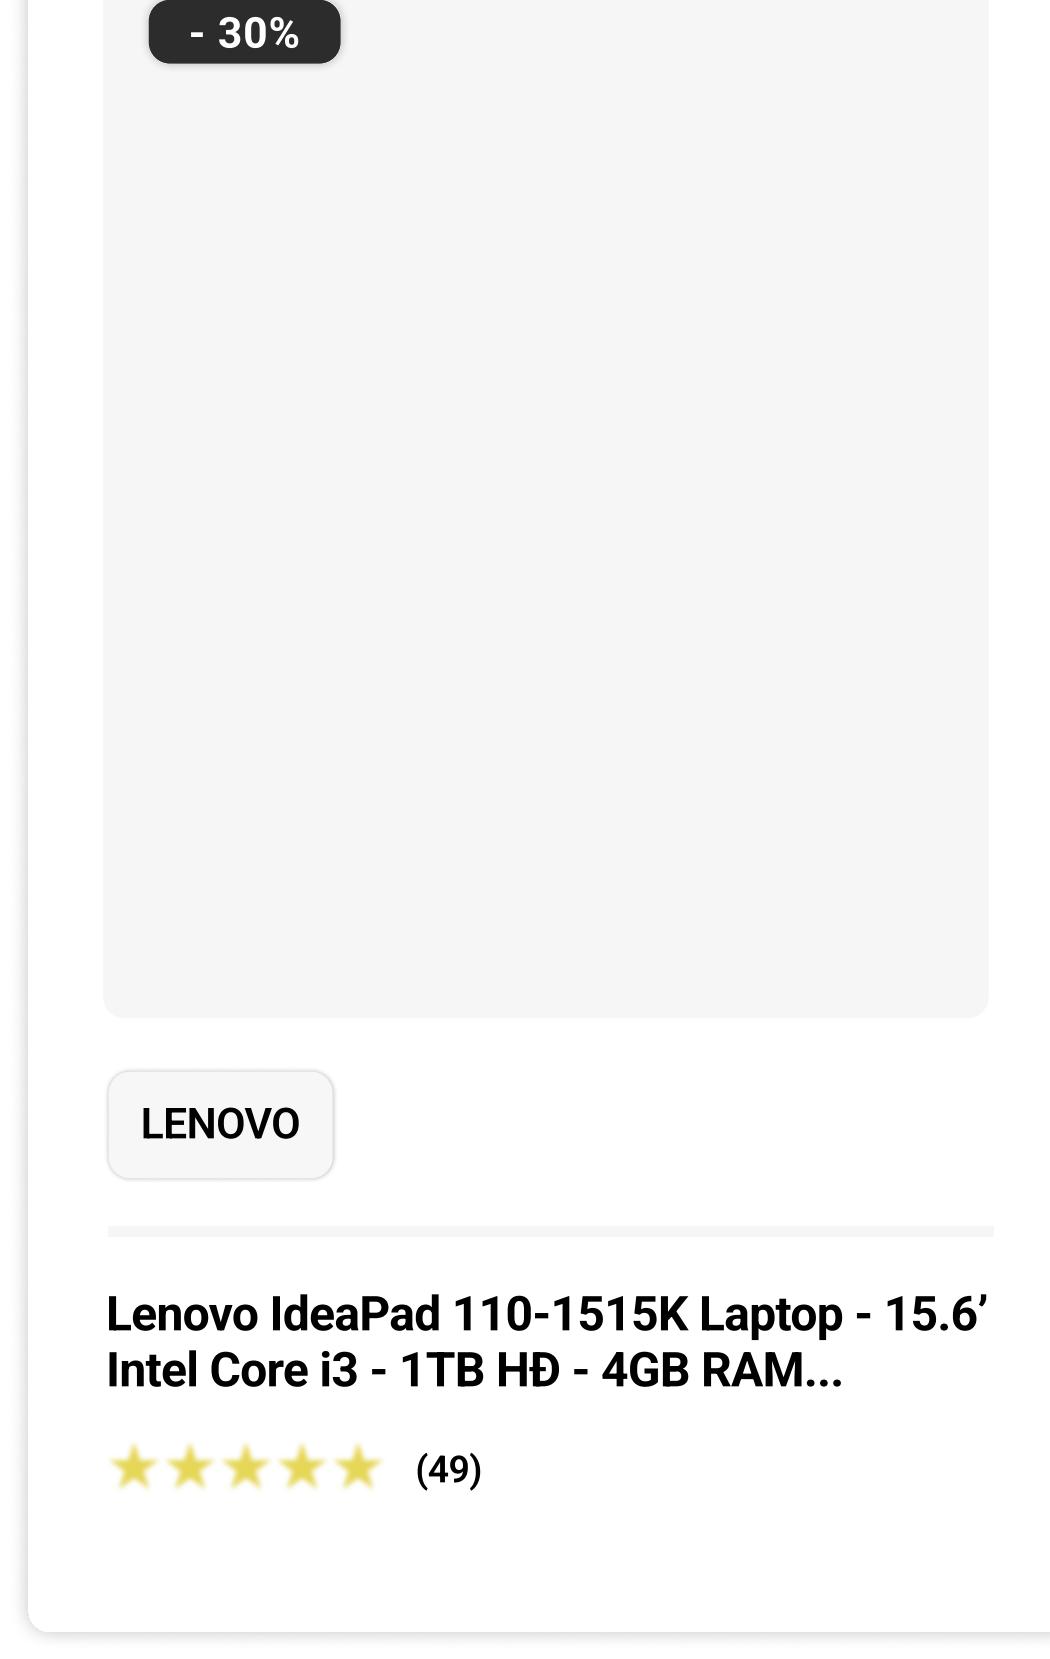

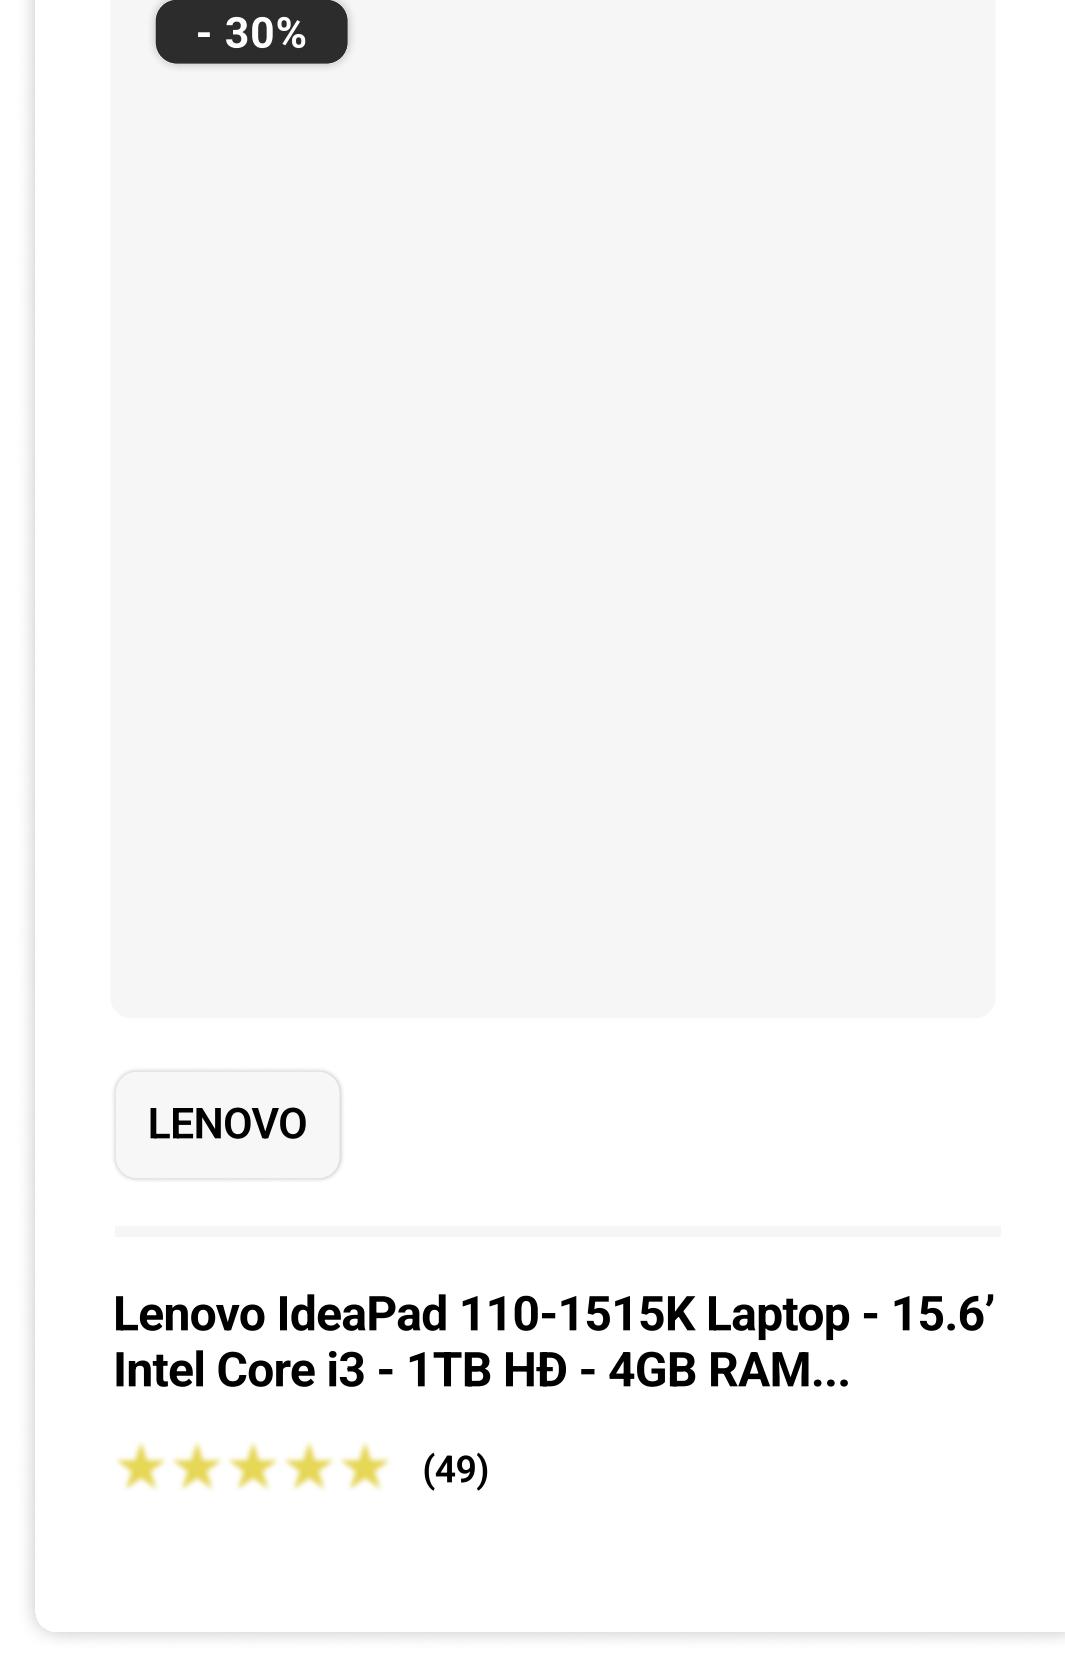

**65C2 Stand model is at a minimum 39% lighter than the C1 series.

***The 'Reducing CO2' footprint label applies to 65C2 only. All other C2 models feature a 'CO2 Measured' label.

****UL ECV certification based on TV frame and back cover. Percentage of recycled content varies by model and size.

Very good stuff.

Already use and feel really good.

Feeling good to use but the price is a bit high.
